Resident at Onore had Advices that he was under great Apprehensions of a Revolution in the Government of the Canara Country from a Large Body of Troops being within two days march of Bednore with an Intention to invade it. It was therefore thought proper to direct all Boats & Vessels that could be procured there to be sent hither as soon as possible, that they might serve as the necessary aids and as a Considerable Rogue would attend the Honble Company's Property he thought it necessary to remove it, as safer & possible, upon armed Merchantmen with 50 Military might be safe to convey it however in case they had no other Vessels as there was to the amount of 30,000 Rupees in Pepper and Copper, and a Considerable sum of Money and the Accounts of the Army had been transmitted by the Linguist at that place they had sent him a Punchwa Lantern 200 Candles and a Gall wer Boat with 35 Military under the Command of an Officer but in case the Honble Company's Effects were not in danger they recommended her detainage of the Goods by any Vessel bound further and to Order the Punchwa & Longboat to bring down Rice for their Garrison, that the Hector, Britannia and Success Galley sailed from thence the 5 January for Anjengo, the two former having taken 70 Tons each of the Iron Guns taken at Mahe, the Mortar belonging to the Garrison, and about 7 Tons each of old Guns for Ballast Settlement.

The Packet from the Resident at Onore was a Duplicate of the Enquiry which has not reached us dated the 1st Instant wherein he expresses Apprehensions of a Revolution in the Government of that Country on Account of a great Impression made by the near approach of a Mogul Army Commanded by Hyder Ally Cawn, which he believed to be very large as he had Certain Intelligence of 200 Europeans being with them both many of their own Officers, and whose Intentions were to make themselves Masters of the Country or to Exact a heavy Contribution from it, and had even taken five or six Strong Forts near Bednore from whence they were neither two or three days Journey, tho' if the Government should comply with them for a Sum of Money it would be the cause of Troubles & Tumults, as they have no other way of paying it but by Exportation which the Subjects had lately felt from the Scarcity of the Army burned their present scheme, it was probable it

[illegible] consigning us, but as it was reduced to Gold, it might be always conveyed away at a Minutes warning without any Danger, he therefore apprehended no Risque in keeping it. That Ramchunder Bandarees who in the beginning of the Rains went to Bednure had been detained there a long time by the Government and had not yet cleared his Copper &c. In a Postscript he mentioned his having received Intelligence that the Queen was fled from Bednure and come down to the Sea Coast and that the Mogul Army was actually at the Gates in consequence of which he had consigned us the greatest part of his Cash by the Rear Admiral and Ramchunder Bandarees Copper, but as he was [illegible] he should take 6 p Cent for any Loss that might accrue on the Recovery of it, the latter of which was not weighed on account Captain Bard's being in a great hurry to get away as he was under the Orders of Captain Tinker That in case Heder Ally Cawn after [illegible] in Bednure should send any parties to settle Ikeree or the Carnatic and Country he proposed retiring to Anjedeva, where he should wait our Orders but to write him a Suitable Letter on his Departure and to leave a Vessel and some Sepoys to hoist our Colours and protect the Company Property there as more Truffle and no Pepper to be purchased for two months, he hoped we would approve of, that the Bandies of Pepper lying at Candanore, which he would endeavour to get away

The last was dated the 14th and advised that he had not been able to gain certain Intelligence whether Heder Ally Cawn was in possession of Bednure but doubted not his Intentions were to subdue that and the whole Country that the prime Ministers Family with many Principal People who fled from Bednure had passed Naggar one in their way to Mysore where there was a Body of some Strength where they were to remain until they saw the issue of these Troubles and it was reported the Queen with the young Rajah Nimbajee and other Ministers had retired to a strong Fort situated up the River where she proposed to make some stand for coming to better Terms or else he came down that way. That he did not intend retiring until it was certain Heder Ally Cawn would settle himself in the Country, because if he went and the Present Government came to some Accommodation with him to withdraw

From the Residency at Onore and Port Victoria

Notwithstanding Hyder Ally's Cavalry & the Forces he has sent against Bednore are so much dispersed as to render it unnecessary for us at present to send any more than what already gone from Canara, yet as the Season is far advanced & the Rains may be expected every day, the Bombay Snow and the Detachment of Military gone in Onore, will be sufficient to secure your Honble Masters property which the Resident must be ordered to take every prudent measure to secure as far as probably by sending proper persons to all the different Places where any part of their property may be lodged but in case the Mogul should be in actual possession of the Country he must not break open any measures with them himself but receive directions from us for his Conduct towards them, for which purpose he must carefully observe from time to time any Alterations which may happen

The Vessels built for the Purpose of convoying the Grabs &c. from Bombay being ready to sail as soon as Provisions Stores & Ammunition are put on board, you are to proceed with the Grabs under your Convoy to Onore, & on your arrival there you are to put on board the Snow Bombay Packet the Treasure & Stores mentioned in the Invoice & Bill of Lading, & proceed with the Snow & Grabs to Mangalore, where you are to put on board the Snow Eagle

We are sorry to observe that Nagoram has not endeavoured to prevent Mahaudrow from entering into any Agreements with you, and indeed Rao Bohanjee since the first has proved been very unsatisfactory, as he has not given us the least account of his Proceedings, we have therefore directed the Chief and Council at Dindigul to send them down to us, when such Orders as you Honour we may be pleased to give them, or to oblige them to return immediately.

We are much obliged by your Honour &c for the Gunpowder you promised sending round by the Chatham Bar Bengal in anticipation of the Quantity ought to be lodged at Tellicherry was on a supposition that there would be a practicable Road from thence to Bengalore, of which however we could obtain no certain Information, but as you have on Enquiry found that the Roads are very bad at this season, & that the Difficulty of procuring Bullocks will be great, we shall not send the Powder, but order it to be left at Tellicherry, there to await further Orders for such Conveyance as may offer to be left at that Place, and which we shall give

your Honour &c. as may each demand, shall be as frugal as possible, and only incur such charges as are absolutely necessary.

Lieutenant Forbes of the Artillery who was ordered by Mr Watson on the 8th with a Party of Sepoys and about 400 Horse, to dismantle a Fort of some note, called Wagore on the River from thence about twenty Miles, and six from Nagpore returned from there the 21st Instant, after having been absent 13 Days he informed me that he spiked all the Guns, and threw them over the Walls, destroyed the Fort Gates, and blew up the Magazine of Powder, the Garrison consisted of about 50 Men he brought safe away, and that he left them not enough to prevent the Enemy from attacking them, as was reported they intended doing the next Day.

Mr Watson left an Order with the Resident of Poonah, to ask his Liberty, and permission to go where he thought proper, but as I have since received Advice that he was Another Night I was informed he intended to join his own Tribe of Arabs the Head of which is now encamped with a small Body of Horse, between the Villages and putting the Inhabitants to Death, though I could be extremely unprovided just at this time to comply therewith, and have therefore ordered them still to be kept below on the Fort, and if possible prevented from communicating with the Enemy on that Shore I shall meet your Honours Approbation.

There were a considerable Quantity of Broad Cloth, Salt Petre and Copper, belonging to the Honble Company which we do not esteem safe to be at present at the Factory, have removed the former into the Fort, and the Salt Petre and Copper is now undergoing the Drubers in Bombay, an Account of the Expenditure of Things and Bought & each, with a Bill of Lading, are enclosed.

By Mr Watson's Directions I opened a Packet Cover to the Day of my Arrival, and enclosed in a Cover Account, and Account Current Disbursements from that time to the end of last Month.

Bombay Castle 30th May 1708

Honble Sirs

Wee are much troubled to hear of the Misfortune that has befallen the Fleet at Anjengo, but hope they will be able to repair their damages, and proceed on their Voyage to the Red Sea, before the Monsoon is over, which will be the best time for them to Sail.

Wee have received a Letter from Mr Hamilton, Chief Surgeon Fleet at Anjengo, dated the 16th Instant, informing us, that the Mahratta Army, consisting of 30000 Horse, and 20000 Foot, were encamped at Chittore, about 30 Miles from Anjengo, and that they had sent a Party of 1000 Horse, to Attack the Fort, which they were in hopes they would be able to carry, before the Fleet could get under Sail, and that they had sent to the Admiral, to desire him to send them some Men, to assist them in defending the Fort, which he had refused to do, but that he had sent them a Supply of Powder, and Ball, and that the Enemy had raised their Siege, and were gone off, which we hope is true, and that the Fleet is by this time under Sail, for the Red Sea, and that they will be able to Repair their Damages, and proceed on their Voyage, without any further Misfortune, which we heartily wish them, and that they may have a safe and speedy Passage to Mocha, and from thence to Suez, and that they may meet with Success in their Affairs, and return safe to this Port, which we desire you will acquaint the Company with, and that we are

Bombay Castle 31st May 1768

Yesterday we have got back the Main Body and with their Baggage every Evening, and attack us again in the Morning, but have not yet succeeded very Bloody, and we encamp'd their Ground to not assist, for we have a Number of Men Every Day and they expect others of the Larger Sort. Our Men have Spirit, and go on cheerfully, and soon we shall from new raised Troops, & their every Day, so that I have Reason to think the Enemy will Bombay Troops attack us can have to Dislodge them from

Lieutenant Boles informs me that he has another a sufficient Quantity of Powder, viz. Five Hundred and Eighteen Pounds lost for the large Pieces we have not time to inspect, and therefore hope that you will send a larger Supply of each as soon as possible, and a considerable Number of Shells having been lost. Ours and part of those we have at present entirely in Use, I must beg you will send us four or five Hundred good Musquets for many of our Men are Armed with

You may look forward upon Hearing the Enemy have received Reinforcements from Mangalore, but we have not heard of it, and imagine they have enough Money to pay for Provisions for their Troops, & one you will supply me from Bombay received Cannot from Mr. Spencer with is about

If your Honour & Council thinks proper to send us Men with the Ships with us, we stand so much in need of, I flatter myself we should be able to land them with safety, as the Weather while continues very fair and the Bar is now as smooth as at any time, only Large

Bombay Castle ——— 3d June 1768.

Gentlemen, It seems therefore probable the same Orders may have been sent to Bussora, and consequently we may suppose Mocha Place is not in such imminent Danger, as in Mr Bruce's Letter it is represented to be, more especially as Captain Byron in a Letter addressed to the Major of the Garrison does not seem to be under any Apprehensions for its Safety. Besides as we may conclude Mr Bruce is now set out, this alone will relieve the Place from any Attempts of the Enemy, and at any rate, as Mr Watson's augmentation to the Garrison of Bussora and a reasonable Quantity of Stores have been dispatched, the Strength of the Place being encreased will enable the Resident to Secure more effectually his Property.

Horrible Fire & Fury

The Chief of Salisbury left Hanguleo on the 26th ult. we had no Opportunity of sending a Letter to Frank we had attacked upon the Return of Mr Kinsey & Mr Cobbold, Middleton had the misfortune of shot through the Body in the Neighbourhood on with Abundance of Ingens Regulars they had met with on the 1st. Inst. on a regular Attack they had made on the Town.

On the 3d. we received Accounts that the Enemy were encamped with a strong Body commanded by the Man in Person, and that he had detached a large Quantity of Ingens Horse with all Expedition, and had strengthened their Body by Deserters Canoes, & the Trade of this Place was to be stopped

I think it my Duty to acquaint you Sir that on the 3d Instant the Fly Gallivat and another Vessel arrived here with Mr Bruce the President of Onore, and two English Officers who all lodged at my House I hear say that 2000 Horse and 3000 Foot attacked the Fort, and had invested it only one Day when a Letter was sent from Messrs Gracey and Tibbalds dated at Tellicherry desiring them to grant the Fort of Onore, and instantly the Portuguese Vessels which they accordingly did, and sent 100 Bombay Sepoys, 15 Europeans, and 1 Officer to defend it. The rest of the Bombay Sepoys and 34 Europeans were taken by the Enemy, except the Havildar who commanded and some wounded Europeans and Sepoys, who came down in the Fly & Hoy mentioned that by the above Letter Hoy understand that Hodgee Ambo in Persia had been at Mangalore with a very large Army, and had attacked the Place, and that the Garrison after two days Service had gone over to the Enemy, which they were obliged to quit the Fort and retire to Tellicherry. Many of the English were killed, and taken Prisoners, on the Retreat there not two hours since. The Disaster was owing to the Garrison's being encamped out of the Fort by the Persuasion of the whole Force had been in the Fort the Rebels never could have taken it. There is no help to what is happened. I hope in your next Letter Success will attend the British Arms.

I think it my Duty to acquaint you that on the 3d Instant the Fly Gallivat and another Vessel arrived here with Mr Bruce the President of Onore, and three English Officers who all lodge ab my House. They say that 3000 Horse and 3000 Foot with Guns left Sunda, and had marched but only one Day when a Letter came to Sr Sambagee from Mr Bruce and Lobbade dated at Sattachery six long Miles to goe the Fort of Onore, and desired the Soldiers might be recalled back, and sent 1000 Bombay Sepoys, 15 Europeans, and 1 Officer to defend it. The rest of the Bombay Sepoys and 4 Europeans were taken by the Enemy except the three Gentlemen mentioned and some wounded Europeans and Sepoys who were here on the Fly. They mention that by the above Letter they understand that the Arabs in Barcelor had been at Mangalore with a very large Army, and had attacked the Place, and that the Country Sepoys who were gone to relieve had gone over to the Enemy, so that they were obliged to quit the Fort and retire to Sattachery. Many of the Sepoys are killed; and taken Prisoners are the Rebels Horse and are now in service. This Disaster was owing to the great Rains and the Enemies and Sepoys having encamped out of the Fort to keep their Guns off the adjacent Hills which had been round the Fort the Arabs could not have taken it. There is no hopes to what is happened. I hope in my next Letter Success will attend the English Arms.

Honble Sir & Sirs

I received a Letter from Mr Bruce and Lobbade the 4th of last Month, advising that the Rebels had encamped down & invested the Army at the Heavy Cannon for the

Bombay Castle ____ 27th June 1760

Attack of Mangalore and the Military Gentlemen there did not deem
it advisable to risque a Battle, and being in case of Opinion that the
Fort was not tenable they had come to a Resolution of withdrawing the
Garrison and accordingly left that Place for Tellicherry the Gallivats

In consequence of this I was directed to order
Capt. Brereton to call a Consultation of the Officers to take into
consideration the Situation of Onore Fort, and whether they thought
it should be given up, since the Nabob or Hyder was coming against
and should they be of Opinion it was not, I was further directed to with-
draw the Garrison to Bednore Island, Captain Brereton, and his
Officers being accordingly summoned were unanimously of Opinion that
the Fort was by no means in a Situation to withstand their Force we
must likewise expect the Nabob would send from Mangalore fresh
Troops already there, more particularly as we could get no Certain
Intelligence of the Number of Troops, who had deserted in considerable Numbers
from Onore before, and upon the News of our having evacuated Mangalore
would return, who were posted Each Night by the Factory to secure
the Cattle grazing round the Fort, all of whom were
of course and joined the Nabobs Troops so that we had not above
Two hundred Men that we could depend upon. These Circumstances
being represented we came to a Resolution of sending Lieutenant
Graham the Bombay Troops, to remain at Bednore Island,
with Directions for the Europeans on board the Gallivats
to proceed to Bombay, as it would be absolutely necessary
to send more Troops and Provisions to the Island, when some
Gentlemen of the Council should be sent to adjust and settle
the Affairs of the Island, the Season being so far advanced and so
near an Army of the Enemy lying round the Fort with their Sights of
Cannon, that we hoped to be able to effect that Night, we should not be disco-
vered by the Country People, but soon after we came to Anchor
they had been informed by the Coast Men who brought the Packet
from Tellicherry, that the Nabob was on the Seashore of Mangalore,
and had sent such a Packet and Letters that on the Morning of the
Captain Brereton intended to have embarked their Troops they all left
the Fort, and went immediately to the Enemy, who [illegible]

men's boats upon us just as the time our People were marching from the Jetty Head to the water side, and to add to our Misfortunes the Inhabitants had secured upon the four Boats which were there to carry away the wounded and Families, so that Captain Coppinger was obliged to order his Men back again into the Fort. I should not omit to acquaint your Honour that the Natives round us from one end of the Island to the other who had upon our People while they were upon the Beach and we away expected the whole four days & then, the Evening after we were safely shut up for the night & in the morning left the Island, I sent down Lieutenant Boles, who was that morning wounded in the Arm by a Match lock Ball, Mr Beale the Surgeon and myself with some Difficulty got off in a small Canoe to the Fly and the next moment went with her the Vessel aground, and a Battoon Boat to the Island sent out to our assistance if any of our People attempted to come off, but they had all got away. Mr Boles was sick the night before & Mr Beale & myself were almost all the Bombay Officers who were on board the Fly, for Boats to bring both them over we were obliged to leave behind all the Europeans Horse came down, and the Enemy's Horsemen and Foot were afterwards in sight they [illegible] Death, &c. I learnt that the Arabs Son in Law of Chowry Head and that Captain Brereton Lieutenant Hill and thirteen Sixty and forty Europeans were taken Prisoners & that a Corporal and Europeans, and two Bombay Officers for the Defence of Tankfield Fort under several Bombay and Gunners Lascars &c and should have ordered Ensign Games Party remained there, but his ill State of Health made it impossible for him very sorry to say your Honour & that the People have left the Island as they were [illegible] they at first absolutely refused to stay, many one of them even Swam to Shore, and declared they were ever [illegible] to remain there, this with the Loss of the Safety of Bombay upon the Island for the British nation to abandon to leave those for the Defence of it, and the Fort House being much out of Repair the Boats had been much damaged by the Rain Thunder & Lightning very badly provided with Arms, for as we were very short of them

Bombay Castle ___ 27th June 1762

Le Brave Captain Egerton had sent only forty eight Hogsheads to the Island, and these with a few Match Locks, which were [illegible] were all they had there, however after much Difficulty and Danger of supplying them with Provisions and Arms from this Place, the Weather ceased & gradually admitted of it, at last prevailed how them to stay, I sent them from the Galliot five Barrels of Gunpowder, a Bale of Cutlasses, and a Cask of Salt Meat, but the latter was unfortunately lost on the Surf on attempting to land it, and they had left [illegible] of a Cask or Shot to Cask there all the Blacksmithing could have procured any remaining there urgently, agreeable to the Orders I received from Bobbachemy, had there been such a scarcity of Provisions, but as that I was then in, I thought it would be much more prudent, and more for the benefit of the whole, for me to proceed to Goa, as fast as possible, & it would then be in my power to supply them from thence with every thing they wanted but in a very plentiful Provisions: Accordingly I left the Island the 25th in the Evening, but having the contrary Winds did not reach Vingorla till the 27th Instant, and we were obliged to put in there for Water. At that Place I received a Letter from the Lieutenant of Portland Island, acquainting me that Captain Egerton had sent to him several Letters left on that Island, that the Enemy had made Batteries upon the Beach opposite to them, and had three Guns, and eighteen Coehorns, which they brought from Bruce Fort, so that not even time with spike up the Guns before we left the Island, & [illegible] letters were delivered I sent them back in a Patamar Boat with Orders that Match Boat should lye close to the Island, which he wanted for Landing, and he advanced there the 4th of this month, & in three days received on the Galliot

As the Weather still continued pretty [illegible] & I hoped myself I should be able to supply the Island with Provisions, and accordingly ordered Madgee Commander to go directly with the Admiral & provided as much Provisions as I thought he should be able to send in a Boat, and as I could procure whatever Stores were wanted upon the Government account, & supply of Hogsheads Pitches Tents &c which he agreed to let me have, but as there was [illegible] some time the Provisions in the meantime ordered, and [illegible]

many Gentlemen so very bad that I can get no People to venture in the Boat and the Lascars which belong to the Galleots and Pattamars Boat absolutely refuse to go in her, so that it is out of my Power to afford them the Assistance I promised, and which they so much want; I shall however wait upon the Governour to thank him for the readiness he shewed to supply me with what I asked, and also to let him know that as I cannot procure People to go to the Island I shall not now have occasion for them, this I hope your Honour will approve

The badness of the Weather will prevent the Enemy from attempting any thing against the Island as that may their only Design will be want of Provisions, and I propose if I have your Orders for your Honour to be embarked as soon as the Sea can with safety allow of it to return further on the Ely Galliwat with as much Provisions as I judge will be sufficient for the Garrison till they can receive Supplies from Bombay

Inclosed I have sent your Honour the Letter which I received from Messrs. Stracey and Tibbald, and a Copy of the Instructions taken in consequence thereof, also a Letter which Captain Pompton sent to the Sergeant at Portuguese Island, ordering him to give up the Place to the Enemy

I have great reason to believe that Ensign Jones who belonged to the Madras Establishment was drowned in attempting to get off to the Fly in a small Canoe for he was seen to leave the shore, and their Boat was much among the Breakers upon standing upon the Water

That the Nabob having brought down a considerable Army with heavy Cannon for the Attack of Mangalore, and their Military Gentlemen judging it advisable to assault a Battle, and being Fathers of Opinion that the Fort was not tenable, we came to a Resolution of withdrawing the Garrison, and accordingly left Mangalore yesterday Morning. We have therefore to direct that you immediately on receipt of this Letter, order Capt. Forbes to call a Consultation of his Officers, at which you are to oppose to the last the Consideration their Situation of Onore Fort, and should the same not be tenable against any Force the Nabob may bring or send, or reinforced, the Garrison must be withdrawn to Fortified Island, taking care to secure the Honble Company's Treasure and Stores, and as many of their Cannon as you can bring off, spiking up those you may find it inconvenient upon, and if time will permit the Fortifications of Onore are upon deserting to be destroyed.

In consequence of a Letter just received from Messrs Pitman Sibbald Captains Engineers and their Officers are now assembled to take into Consideration the Situation of this Fort, and as they are capable of resisting any Force the Nabob may bring or send against it and as their Numbers which now almost surround this Fort are computed to be at least Eight thousand, and we have great reason from their having got possession of Mangalore to expect they may be strongly reinforced both with Troops and Battering Cannon, besides which the latter Dependence we have upon our new raised Corps cannot be depended daily, We are unanimously of Opinion, this Fort is by no means tenable against such a Force, and as there are not sufficient Powder at Fortified Island even for the Cattle of the Garrison, and the Season too far advanced to admit of our including the Necessaries to embark on the Ships Europeans on such Cattle as we have here and proceed directly to Bombay, where they can be supplied but as that will be necessary for them

Laid before the Board a Letter and Paper of Intelligence received last Night from Madras; We should very readily attend to what the President and Council recommend from their Letter, but Gentlemen residing at Bombay, and thinking good Measures might now from hence, but in the present critical Time of Affairs between Hyder Ally and the English, it appears to us impracticable until we see which Party may prevail ——

The Naick then went on Board, and found the Sailors on the Beach, he desired us to sit down before him, and immediately proposed his Terms. He said there were [illegible] Men and Gunners of the number of about one hundred each Battalion, and a Body of Horse besides, were all come on this Island with a Body of Attack at Night, when we were brought over to this Place, where we now remain close Prisoners, and at the Instance of the Naick I do acquaint you with our Situation, that we rely on the Promise that was made us of the kind Conduct of the Bombay Forces on this Coast, with whom we always embraced a mutual Friendship, and commit Charge to them of us having violated the same in any Instance, and more particularly the Hardships we can justly accuse them of being the Aggressors, and do Conclude by Peace, and wishes nothing more than the speedy Conclusion of that may be lasting, to which End we are willing that an Exchange should be made of all that have been taken on both Sides

Yesterday Morning arrived here a Vackeel from Mangalore by whom we received a Letter from Mess.rs Saunderson Stott Evance and Cameron, Officers in the Honble Company's Service informing us of their Situation, and likewise of some other Occurrences tending to a good Understanding, they represent you as well as the Nabob to have Reason to complain of some Encroachments. The Governor and Council the second of October have enclosed an Attestment a Letter to them to accompany any Dispatches you may [illegible] to transmit immediately from Manjulore to this Port which I must observe indeed will be far more agreeable than any other Method can fall on at this Season of the Year for getting them conveyed to Bombay. I, John Paynter, Captain of Infantry, in the Honble Company's Service, belonging to the Presidency of Bombay, do hereby declare my Owner Jack and Factory in Condition that my ship and the Troops under my Command be conducted as soon as possible to Bombay, to have over Baggage and Effects with the greater Dispatch for the Company

Dated on board the Ship Hawke this 26th of 1768

I the Commandant Major Commissary Lindy affirm that the Ship Hawke arrived at Bombay on Friday the 26th and as our Boats could not be hoisted out necessary to make the shore we were immediately discovered by Boats from the Island and the Native Himself came within a Mile of the Ship Hawke Anchored with the Army against us would have consisted of 10000 strong

I have always been kept upwards from the Ship the exact Number but believe there to about 2000 Men and about the same Number of Sepoys Lascars Women & Children are passengers, and some Letters being on board the Bombay Merchant Masters will account this Account

Bombay Castle ——— 15. August 1776

I have by the Nabob's Dewaun's advice
to Day for dist as follows, viz. one Rupee, Lieutenants Faith, one
Rupee, half a Rupee for each Serjeant and Subaltern, one Gar-
rison and fifteen for each Corporal, and one quarter for each private Gunner
and Cooly, for the time we have been confined and he has promised to
advance more Cash as that we are daily with him, but it will
not support here long.

I hope Mr. Bruce, Lieutenant Wales and
the Party arrived safe. It gave me great Concern to hear that
Ensign Lane was drowned in attempting to get over to that Island, &
five Seapoys wounded, Wales who was wounded on the left Arm, that Ensign
Faithful received a Contusion all my Officers deserved Applause,
more especially during the most Dangerous time the Works were erected. Each Man
was employed to his Party on ordering Embark. I found that the Cohorn
& Ammunition Boat was ordered, on board the Gallivat
but was not hoisting a Sail Breeze, neither was there one Boat to
go in sight. I had spoke to Mr. Forrest and three Officers besides who
must be would have a sufficient Number on a Cadjan to carry
to Bombay if required.

The Nabob seems much inclined to make
a lasting Peace with Bombay, and if possible with Hadrabad, as appear
by his sending his Dewaun, besides attack he has by our Desire
sent Vithal Pundy with a Letter for Ramchunder Ganeish to
come back as Head of Affairs. He has done everything within
his power for the Good of the Army, shall send more Provisions at Mangelore &
his Behaviour do assure I have been the same the little time I have been
here. He can neither read nor write, the manner of our Negotiation, many
Conversations on regard to Trade of second hand Muskets, and the
Nabob's Intention of supplying Bombay and Goa with Rice are
directed according to the former Agreement. I hope herewith he will be able
to give you a satisfactory Answer to any Proposal you are desirous

Agreed that we transmit a Copy of that to Mr Thomlay from Messrs Vansittart, Evance and Cameron to the President and Council at Madrass by which they will more immediately be enabled to judge of the present Disposition of Hyder Ally towards us.

The Bills drawn upon us by Captain Brereton are ordered to be discharged.

The President lays before the Board a Translation of a Letter from Rangee Mangiee to him, accompanying one from Madarow with a Present to a Gentleman to succeed to Mr Gehin's Business is therefore reappointed for this Service, of which the President and Council at Madrass must be apprized.

and Thanks in our Name, to take, as they be kept all Letters, Despatches &c
with the Utmost Secrecy Colonel Wood is now regulating the Garrison, and from
the Number of Troops necessary to be left, and consequently the Change of
Cantonments

When this Business is accomplished; which cannot
be Later, longer than the End of this Month, about which Time we shall
with this Army have commenced Bengalore, as near as it is necessary, till we
shall have a sufficient Quantity of Heavy Cannon, and Stores, a new Plan of
Operations will be formed; at present, according to our Ideas, will be as follows

The Detail of the Garrison left at Mangalore was
only as very fortunate Event, as to the Loss of Reputation, this additional
Force given to Hyder and his Troops, and the Acquisition he has now
of a considerable Number of Field Pieces and Stores, but it has an agree
ment disconcerted our Plan. However it must be endeavoured aga
as it is for as possible by us; for it is evident by Hyder's abandoning
every thing here, how unwilling he is of any Invasion or Loss in the
Bidanore Country, he must therefore seek them again on that Side
as soon as the Season will permit, and with such Force as may at
be opposed to his in the Field on that Coast, but capable of reducing
the Hospital of Bidanore. For this purpose we have already forgot
to the Resident and Council of Madura, that Colonel Wood, and
his Army with Officers with 2000 Military 50 Artillery, and 2000 Sepoy
Troops, ordered to march with Expedition to Calliacut by way of Coim
and either from there or Palgat to Bidanore. All the Troops that
are now at or near that Place with many thousand Bullocks of Grain
and other Provisions for their Subsistence, being found, the Garri
here at Bombay & most from Hand, which, with those including those
from Bidanore will consist at least of 1500 good Europe, 500 Militia
and 200 Artillery with proper Field Pieces, heavy Cannon, Mortars
and other Stores of any Assistance of the Country can be added to
may be of use. Before I doubt not Colonel Wood with such an Army
will be able to accomplish all we can expect from him in the Bidanore Country

If Hyder is not inclined to Battle, if possible, we shall be
informed in the Plains of Bangalore, and through that Place into
Tanjore with a large Body of Troops, and Colours and Provisions

Bombay Castle ___ 17. September 17

shall carefully avoid uniting his Detach, or Country; the Land is all their Boundless are afraid of losing something, and each of them wants to get some Place or Country which he has not, and of Hyder as for him. It is probable we may engage some of their Horse into our Pay but they have not many. So Morarow who is a Man of Ambition, has been much injured by Hyder, and who cannot obtain any degree of Confidence, or Trust from Madasow, we have made a Direct Proposal of a Lack of Rupees paid down and Rupees 50,000 p. Month after we come to with 30000 Horse, he has accepted thereof, and encamped with all his Troops at Bunnyalaum, where he arrived the 30th ultimo, is now encamped he is above 20 or 25 Cos Palaum, & when he joines the Table 20000 Horse we shall be left considerably for Provisions, and Forage by the Country of Hyder, and probably have Occasion for no other Resources of that Kind.

Having thus explained our Ideas of what shall probably undertaken, and the only Obstacle there is at present Money, which is a small one we cannot avoid obtaining on another Loan which we are astonished has not yet been progressed by Hyder, as our Chance. It is probable the Consideration of what the Mogul may do to oppose us and the fear of exposing the Carnatick to their Ravages, or the want of Money to support so heavy an Expence, may induce the Soubadary of Madras to Stand in an Accommodation with Hyder on such Terms as are thought reasonable, and will indemnify us for the Expence of the Armament, some Territory and Privileges to the Value of 8 Lacks of Rupees annually, which is the only Argument in his Favour, especially if this Expedition should be successful and he appeared convinced of the necessity of our Friendship and changing his System of Politics. Indeed we think it impossible he can be taken for Support, because as Friends we could have him to command & Support and as Enemies the most dangerous are on his Head in reason similar, for could we be sure of his Destruction and Absence, it might be our best Barrier against the Mahrattas, and also remove the Cause of the Carnatick Brothers Wars

[illegible] Arms on the Coast to demand more advantageous Terms than they are now upon, and they are already fully apprized of the Advantages we possess in Search of us on this Coast. Both Nizam's Ally and Hyder's Ally have Agents now at Poonah, whose Designs are ever to prevent us settling, but as we came provided they will endeavour to endure the Mortification to take part in these present Troubles, which should they comply with, would make it extremely difficult for your Servants to bring Hyder to any Terms of Accommodation, and consequently frustrate your Views. We have therefore judged it proper to send Mr. Charles Barnett to reside at Poonah for some time, and have instructed him carefully to watch the Designs of the Mrattas and advance us as well as their Power at Court for such particular advantages as may from time to time occur by which means we may possibly be able to prevent their Mrattas being join'd in the present War which would be attended with [illegible] consequences to us.

We observe your friendly means of mediating [illegible] between the Nabob Hyder & Tookajee Scindia, which leaves him no room to imagine any other motive in you than his Advantage, but as you may rest assured nothing on our parts shall be wanting to [illegible] his Friendship and to shew with what sincerity you [illegible] Mrattas and your Resolution and Perseverance in pursuance of the Treaties between Shahoo and the Nabob we were in hopes to have got him over to either of them, and when we met [illegible] Tookajee's Inclination was for Nabob, we had not a Power to make any more favourable Offer than was never accepted of, we have joined now with the Peishwa but only to have brought Mhadajee Scindia to the same Offer he did, which had we then had a Power to [illegible] should have now thought such a Peace would [illegible] to his Uncle's Credit.

By your Agent Abdul Gunny I
received your Letter, and discovered the Contents. Further I have
seen of your Desire for a Peace, and lasting Friendship between
Nations, as also be assured you, and the Governor of Bombay
which perhaps has been occasioned by my sending a Gentleman to
the Presidency Government of Tellicherry. Need not any
more of any Hesitancy as the Terms of every Letter I have sent you
since my being in Charge of the Government have been to that
End. I am sorry to add that I am absolutely prevented from paying
the least Attention thereto, until the Terms on which Peace is
negotiated & finally compleated with, which Captain Peter Lawrie

your Honour &c: as my reasons for so doing, I shall be as frugal as possible, and with as few more men that are not absolutely necessary.

Lieutenant Boles of the Artillery who was ordered by Mr Watson on the 8th Inst. with a Corsa Gallivat and about 20 Bombay Men, to dismantle a Fort of ours, called Dapoorie, distant from hence about twenty Miles, and six from Nagpore, returned from thence on the 21st Instant after having been absent 12 Days, he found the Fort quite dismantled, and threw them over the Walls, destroyed the Embrasures, and blew up the Magazine of Powder, the Garrison consisted of about fifty Men, he brought safe away, and this he effected without any Resistance, the Enemy from attacking them, as was expected, as they were employed during the great Day.

Mr Watson left an Order with me to give to the Killedar of this Fort his Liberty, and permission to go where he pleased, this I accordingly did, but as I have since received Advice that he was the Author of the Murder committed on the Persons now absent, I have ordered a Party of Sepoys to the Head of Ghaut on the Eastern Road, and a small Body of Horse to intercept the Villages and pursue the Inhabitants to Death, this I am the more determined to be extremely impressed upon at this time, to compel him to return hither, and have therefore ordered him to be kept below in the Boat, out of sight, to prevent his corresponding with the Enemy, and the Scheme he should meet your Honours Approbation.

There was a consultation held Yesterday by the Council of War, and the Chief and Engineer, lying in the Trenches, and enquiring of the Enemy and we do not esteem that to be at present advisable, for by it we have removed the former with the Fort, and the Gallivat, and Bombay Vessels now before the Dapoorie to Bombay, an Account of the Number of Boats and Men of each, with a Bill of Lading, are inclosed.

By Mr Watson's Directions I opened a Letter to Mr Le Fabe, since the Day of my Arrival, and enclosed is a Copy thereof and Account of Personal Disbursements from that time to

[illegible] when and how did the Enemy retire from the Fort?

Bombay Castle ____ 17th June 1763

A No

Q Did the Enemy bring any Cannon against the Fort?

A None

Q Did not our People spike their Cannon from the Fort?

A Yes and on our firing the Enemy would retire, and advance again as soon as we ceased firing

Q How was our Ammunition secured in the Fort?

A In a House covered with Tiles, and a high Wall round it

Q Do you think that any of those Rockets could have come with Force enough to have broke through that House, provided they had fell upon it?

A He thinks the Rockets might have broke the Tiles and gone through.

Q Had the Europeans and Topazes plenty of Provisions in the Fort?

A Enough

Q Do you know of any Difference that happened between our Europeans & Topazes?

A To They all agreed very well

Q Why did our Troops quit the Fort, and in what manner did they do it?

A He cannot tell for what reason our People quitted the Fort, but about 8 o'Clock at Night of the Day aforesaid, they did quit it, and proceeded to Sankfield Island on board the Ply Gallivat, and two Fishing or Batteemar Boats, except about 35 Topazes who were left on Shore because the Boats could not contain them. That early next Morning our People sent two Canoes from the Island to bring them off, but the Topaz Men discovering the Enemys Horse near the Water side, were afraid to land, and therefore put back to the Island, upon which those Topazes made their Escape after the best manner they could.

Q What became of the other Topazes and how came you & your accompanying [illegible] Shaik Ebrand Shaik Ebrahim of Surat Nagoda Company [illegible] and continued there for the next Days, that on the last of which [illegible] Major Brooke took him, the Topaz Prisoner, and carried [illegible] Hands tied in their Turbins and taking as close Aim [illegible] how Shew Gold, were to go about their Business for if they [illegible] them, they should be hanged, And during this [illegible] the Gallivat got off

The President received the following Letter from Hodgee Commaleel at Goa.

Translation of a Letter from Hodgee Commaleel at Goa dated the 14th June.

I think it my Duty to acquaint you that on the 3d Instant the Ply Gallivat and another Vessel were sent by Mr Bruce, the Resident of Onore, and two English Officers, who all lodged at my House. They say that 2000 Horse and 3000 Foot attacked Bilchi Fort, and had invested it only one Day when a Sowar came with a Letter from Messrs Stacey and Siball dated at Tellicherry requesting them to quit the Fort of Onore, and retire to Honsul or Bilchi which they accordingly did, and sent 100 Bombay Sepoys, 15 Europeans, and 1 Officer to defend it. Part of the Bombay Sepoys and 34 Europeans were taken by the Enemy, except the Officer & Gunner who escaped, and some wounded Europeans and Sepoys, who arrived here on the Ply. They mention that by the above Letter they understand that the Nabob on Bednore had been at Mangalore with a very large Army, and had attacked the Place, and that the Country Sepoys on your Service had gone over to the Enemy, when they were obliged to quit the Fort, and retire to Tellicherry. Many of the English were killed, and taken Prisoners, on the Retreat. I have heard no News since. This Disaster was owing to the great Number of the Europeans and Sepoys being encamped out of the Fort to shade them from the Heat of the Weather. Force had been in the Fort the Nabob never could have taken it. There is no help for what is happened. I hope my future Letter Success will attend the British Arms.

Received of Pattamars a Letter from Mr Richard Thomas & Benjamin Price at Goa, enclosing Copy of one from Messrs Stacey and Siball (Both of the Country Service) dated 2d Instant, Head of a Letter from Captain Brereton to the Engineer commanding at Honsul Island all entered hereafter

at Anjar, Captain Boyston had sent only forty eight Bullocks to the Island, and those with a few Mallet Sticks, which our People are much accustomed to were all they had there, however after much Difficulty and Trouble of supplying them with Provisions and Stores from that Place, the Weather would probably admit of it, I at last prevailed upon them to stay, I sent them from the Galliwat five Barrels of Bombay Powder a Bottle Bascreet, and 2 Casks of Salt Meat, but the latter was unfortunately lost in the Surf on attempting to land it, and they had only saved a Cask or two of Salt Meat all the Beans, nothing should have prevented my sending them more agreeable to the Orders I received from Bellesberry, had there been such a scarcity of Provisions last as Shah Nuzeer then, I thought it would be much more prudent, and more for the benefit of the service, for me to proceed to Goa, as soon as possible, as it might then be in my power to supply them from thence with whatever they wanted but having particularly Provisions, Accordingly I left the Island the 25th in the Evening, but having the contrary Winds did not reach Sandadown till the 2d Instant, and we were obliged to put in there for Water, At that Place I received a Letter from the Commandant at Portuguese Island acquainting me that Captain Boyston had been several times to deliver up the Island, that the Enemy had been upon the Beach opposite to them, and had Plundered another Boat which they brought from there, but for the present they had spoke us the Guns before we left Bombay I have a little recovered I sent him back in a Pattamar to the Island that Goal Lying close to the Island, which is Sounding, on the afternoon I have the 4th of this month, I received on the Galliwat

As the Weather still continued [illegible] I should be able to supply the Island with Provisions and accordingly ordered Bellgee Commanger to go to the Island & Expedition as much Provisions as they could be conveniently put on Board and as I could purchase consistent with the Government Interest to supply of Stores [illegible] to be served to the Troops, two as the one than [illegible] Thunderbum ordered, and to Weather

more grown so very bad that I can get no Bricks to continue in the Boat, and the Lascars which belong to the Galleys and Pattamars Boat absolutely refuse to go in her, so that in the midst of my Business to afford them the Assistance I promised, and which they as much want, I shall however wish upon the Governour to thank him for the accommodation he ordered to supply me with what I asked, and also to let him know that as I cannot procure Bricks to go to the Island, I shall not now have occasion for them, this I hope your Honour &c. will approve.

The badness of the Weather will prevent the Enemy from attempting any thing against the Island, so that now their only Object will be want of Provisions, and I propose if I have additional Foreigners Honour &c. to the embargo as soon as the Season will probably allow of it, to return thither in the Ely Galliard, with as much Provisions as I judge will be sufficient for the Garrison till they can receive Supplies from Bombay.

Inclosed I have sent your Honour &c. Letter which I received from Messrs. Stracey and Tibbald, and a Copy of the Instruction taken in consequence thereof, also a Letter which Captain Pownton sent to the Sergeant at Butfield Island, ordering him to give up the Place to the Enemy.

I have great reason to believe that Emigee Bhonsla, who belonged to the Mahratta Establishment, was drowned in attempting to get off the Island in a small Canoe, for he was seen to overset there, and his Hat was next morning taken up floating upon the Water.

I shall however wait upon the Governour to thank him for the Men he has ordered to supply me with, and to ask and also to let him know that as I cannot procure People to go to the Island, I shall not now have Occasion for them, this I hope your Honour &c will approve

The badness of the Weather will prevent the Enemy from attempting any thing against the Island, as that now their only Dependance will be upon Provisions, and I apprehend if I have not Orders from your Honour &c to the contrary as soon as the Season will possibly allow of it the whole Number of the Fly Galliot, with as much Provision and Stores as can be spared for the Garrison till they can receive Supplies from Bengal

Inclosed I have sent your Honour &c the Letter which I received from Messrs Stracey and Sibbald, and a Copy of the Letter from them in consequence thereof, also a Letter which Captain Braithwaite sent to the Sergeant at Forbidden Island, ordering him to give up the Place to the Enemy.

I have great reason to believe that Ensign Lucas who belonged to the Madras Establishment was drowned in attempting to get off to the Fly in a small Canoe, for he was seen to leave the shore, and soon after it was most unmercifully blowing upon the Water.

By the Cattamar which I dispatched this day to Tellicherry, I acquainted you with what had taken place at Mangalore and Onore and that Mr Price with the French Officers were coming here from the latter.

I have now to advise you that Mr Price arrived at Onore the 19th Instant, and that I have already disbursed near 1000 Rupees, which you will please to order to be replaced to the Ground. The News of Onore is as follows, that the Nabob Saudeer Ally had been at Mangalore and Barcalore, from whence he returned with Body of Men to Bednore. His Son Tipoo Sach still remains at Onore with 10000 Sepoys, and some Horse. He has ordered a Battery on the Point at Onore and Ammunition enough he will not be taken. It is reported that the Nabob has prepared [illegible] sail of Grabs and Gallivats to send against it, and that the Inhabitants have taken Arms at Mangalore, and Onore [illegible] armed up the Bednore Passes all Hear at present

I have by the Nabob's Directions allowed the Navy for Cloth as follows, one Rupee, Lieutenant Smith one Rupee, half a Rupee for each Sergeant, and Subedar, one Serjeant and Fifteen for each Corporal, and one quarter for each private Gunner and Cooper, for the time we have been confined, and Seth has promised to do the same with the Cloth during our Stay with him, and the Nabob approves of it.

I hope Mr Lance, Lieutenant Bate and Navy are safe. All gave me great Concern to hear that Lieut. Brereton was drowned in attempting to get over to the Island, and that Mr Bate who was wounded in the left Arm the Day he landed as reported. In short all my Officers deserved Applause, and I hardly know the Man the Portuguese invested. Barbarien commanded the Factory under Brereton. I found that the Company's Interest, that I had declared on board the Defiance and Revenge to the Board, neither were the Merchants to receive which I had spoke to Mr Purnell and three Days before, who assured me he would have a sufficient Number of Men ready to Embark as required.

The Nabob seems much inclined to make Peace with Bombay, and dispatches with Madrass, as appears by the Directions, Lieutenant Buck has by our Desire to Day Writing, obtains Leave in the present Trouble annexed to our Packets of Rupees. He has done every thing and his Scraps that were made Prisoners at Mangalore, however he has been the same the little time I have been with the manner of our Situation, many Disputes encouraged by Trade, of some past Mistakes, and the Difficulties of supplying Bombay on future with the Season according to the former Agreement. I hope he will be able to give a satisfactory Answer to any Part that I am not clear in made acquainted with.

The Nabob has sent Cash to make up Rupees at the rate agreed on the end of this Month, and Inward, and Inward and Outward Cargoes that the

per Sloop Diligence Allen Captain Gale, just as
we were on board the Attack Boat Bunker Island (as you
will see by the Copy of the Letter I wrote to Commodore Hopkins)
when I received the Letter from Governor Tucker, which
I immediately Read, but we were so much hurried
in getting the Boats off, that it was 8 o'Clock
before we could get to the Little Sandy Point, from
whence we Landed, and Faced a Landing on the Craggy
Rocks, where the Enemy had Thrown up Fortifications, and
Cannon against them, but finding a Man-of-War
to the South Ward of us, we got round the Point, where
the Enemy made a Stand, and we had three Skirmishes
with them for a Time, and had no Men hurt, we
then got over the Neck of the Hill, which is almost inaccessible
except by Goats, & when we came on the Backside the Enemy fled
from their Works, and we have been ever since employed in dragging
Guns from different Places, and Entrenching, making the
proper Dispositions for attacking Them, but a Letter was received from
Major Hall when he desires my immediate Return with Him to
Town, by putting them on Execution, so can do nothing more than leave
a Party on the Place of Sixty Men, five Gunners
with the Men and Fifty Rifle Guns, and a Party
of Seamen, which may seem much for the present, and on the Point of
Coot Island, a Garrison of Twenty Europeans, and Ten Negroes
with Directions to Fortify so as they may be able to keep off the
Enemy's Men of War from Paget's Island, as the Inhabitants for
the most part have sent their Families off, and their Slaves in
